

APRIL 11, 2018 - IN LOVING MEMORY

Victoria Rose Whiteman

"Those who dream by day are cognizant  
of many things which escape those who  
dream only by night."

Edgar Allan Poe

Dear Family and Friends,

April 11, 2018 should have been our dear Victoria's (Tori's) 29th birthday. We are heartbroken and still can't believe she is gone. We don't want her birthday to go by without acknowledging it and, hopefully, celebrate her life. Please continue to think of our dear Angel Victoria and continue to talk fondly about her - that helps us and will continue to keep her memory alive.

Victoria was loving, caring, compassionate and kind to everyone - animals too. She continuously and selflessly strived to help others any way she could, without seeking anything in return. She tirelessly talked people through crisis situations, involving professionals when needed, and saved many lives. She also reached out to people just to be nice, always wanting to "pay it forward."

One day in September, she told us (and later posted on FB) that while in the ladies' room at school fixing her hair before pictures, a complete stranger came up to her and told her she was already beautiful and didn't need to fix her hair or change her appearance for a picture. They chatted a bit and parted ways. Victoria said that woman made her day brighter by reaching out for her, and she encouraged similar acts of kindness from everyone. "Never stop paying it forward in life" she said.

In memory of Victoria, we are asking each of you to do one random act of kindness - simply saying "have a nice day" can mean so much to someone.

Thank you for your continued love and support.

Love, Bob and Barbara

Forever in our hearts
